· **Interests:** Teaching/Tutoring; Gaming; Experimental programming; Science; Yoga;

WORK EXPERIENCE

Bank of Whittier - LARIBA   **July 2015 – Present**
Web developer & IT Associate   *Whittier, CA*

▪ Patching computers to address security vulnerabilities and comply with industry security standards.

    www.lariba.com

        Developed originally in 1999, the Lariba website needed to look more modern and function responsively. Features developed include accessibility capabilities, loan applications, online banking and social sharing.

    www.bankofwhittier.com

        We used PHP templating and all front-end languages necessary for building a responsive modern design. Features include financing applications, 3rd party online banking integration and social sharing.

Infiswift Technologies (https://infiswift.tech**)**   **Dec. 2018 – Apr. 2019**
